Killer Shell CKAD Simulator Score

9974cf93-5b37-4681-a243-c767d42939d8

This score will be calculated every few minutes

2025-12-29   (3 minutes ago)

The **simulator difficulty** can be considered higher compared to the real exam. Most of the simulator questions require good amount of work and can be considered hard. In the real exam you will also face these hard scenarios, just less often. There are probably also fewer questions in the real exam.

Solved subtasks:	
67 / 113	**Medium Score**

Question 1	1 of 1
File /opt/course/1/namespaces contains all namespaces	✓

Question 2	5 of 5
